

SAFETY - McCOTTER BLVD

McCotter is a safety question

- 80+ commercial trucks in under 4 hours - timestamped video.
- The City confirmed IN WRITING: no traffic study, no safety analysis, no logged complaints - 1990 to today.
- 2 lanes, no shoulders, driveways onto the pavement - vs. a 4-lane alternate about a minute away.
- McCotter is a STATE road (SR-1824). A city can't reroute it alone - but the seat forces the safety question: a Board resolution + petition to NCDOT.

"I don't promise a reroute. I promise to force the safety question into the open."

Sources: City of Havelock written response; candidate's timestamped video; NCDOT (SR-1824).

FISCAL - THE RECORD

A manager's pay should fit the town

- \$287,415 city-manager exit package, behind a closed session - roughly 10x per-capita income of \$29,099.
- The City is advertising the next manager at \$185K-230K - in a town where 1 in 7 live in poverty.
- The same budget raised utility rates on residents "to balance the budget."
- The fix: a fair base (~\$120k, four times per-capita), with pay above it tied to independently audited savings.

"If the city thrives, the manager thrives."

Sources: BOC minutes 10/20/2025; City of Havelock manager job posting; US Census QuickFacts.

Two fights, one standard: kids' safety on our streets, and a city budget that answers to the people who pay it. Every claim on this sheet is sourced - flip it over and check me.

NOISE - ACCOUNTABILITY

Enforce what's already on the books

- 87 loud-noise calls in my records; 6 enforcement actions - all in the first period.
- Zero noise citations across my three most recent records periods - about six months (Feb-Aug 2026).
- 150,000+ A-weighted readings logged; peak 102 dB(A).
- The tools go unused: plainly-audible (Sec. 93.04(B)(7), no meter) and exhaust (Sec. 20-128).

Not a promise to make the town quiet - a demand that the ordinances we already have get used.

Sources: 5 public-records requests (counted row-by-row); SPL log; Havelock City Code.

THE PLATFORM

Five commitments for the whole city

1. Enforce the ordinances already on the books before writing new ones.
2. Get commercial trucks off residential roads.
3. Answer every constituent within two weeks.
4. Improve HPD ordinance-enforcement training.
5. Open two-way communication, on the record.

"I don't ask Havelock to trust my word - I ask you to read the record."
